

Whiteley Primary School - PE and Sport Funding 2018

Department for Education Vision for the Primary PE and Sport Premium:
ALL pupils leaving primary school physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport.

The government has been providing additional funding for schools since 2013 to improve provision of physical education (PE) and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture, Media and Sport - is ring-fenced and therefore can only be spent on provision of PE and sport in schools. It is expected to continue until 2020.

Schools must spend the additional funding on improving their provision of PE and sport, but have the freedom to choose how they do this. Below is an overview of how we have used the funding for the academic year 2017-18.

PE and Sport Funding

2017-18 £16,952

This year we chose three focus areas:

- Key indicator 1 - The engagement of all pupils in regular physical activity – kick starting healthy active lifestyles.
- Key indicator 3 - Increased confidence, knowledge and skills of all staff in teaching PE and sport.
- Key Indicator 5 - Increased participation in competitive sport.

The majority of our funding this academic year has been used to buy into Henry Cort's curriculum support programme (£8,603). The benefits of this programme include

- A PE specific teacher spending one day a week teaching at our school (Miss Trudie Luff has been working in school every Monday)
- Quality monitoring of the PE teaching.
- School Games Organiser support across the cluster.
- Support for L1 competition framework across the cluster.

The key benefit of this programme is having a PE specialist teacher working alongside our staff every Monday. Trudie Luff has taught across the key stages once again this year. Over the course of the year, we have used Miss Luff to teach across every class in the school with all classes benefitting from at least one half term of specialist PE provision. All the teachers involved with this provision have fed back on how much they have gained and appreciated having the chance to observe and co-teach with Miss Luff for both gymnastics and outdoor PE lessons. The philosophy is that the primary school teacher observes and copies the techniques shown, so that in the future the class teacher can continue to deliver high quality PE lessons. This year

we have had two NQT teachers working with us and both have had the opportunity to work with Trudie following limited training and opportunities on their teacher training programmes. In addition to her direct work with class teachers, at times Miss Luff has also videoed her lessons so that other staff can observe her teaching certain skills. She also provided us with detailed planning for future use. This support has helped us achieve the third key indicator of increased confidence, knowledge and skills of all staff in teaching PE and sport.

This year, we used approximately £1000 of the funding to continue to provide a breakfast multi-sports club to help us meet key indicator 1: engagement of all pupils in physical activity. This club was run by a local sports company and pupils from Y2-4 were invited to attend, with half the places targeted for those who did not do any other sport activity outside of school. Approximately 50 children attended the club during the year; over half the children who attended did not do any other sport club during the week. Children who attended the club were very positive about the sessions and a number continued for more than one term.

This year, we have used approximately £1950 of the sport premium to increase our lunchtime staffing so that one of the teaching assistants can spend 30mins each lunchtime engaging older pupils in playing games such as 'rip-tag' and a further two can support the younger pupils in activities using small equipment such as skipping, space hoppers, soft balls and stilts.

£395 of the funding has been used to pay for access to an online PE resource called 'PE Suite' which provides video and photos to support across the PE curriculum.

This year, we have used a significant portion of the funding (£2500) to ensure that we have appropriate and adequate equipment for the teaching of PE. This has included the purchase of

- 90x footballs (sizes 3&4 for different age ranges)
- 60x rugby balls (sizes 3&4 for different age ranges)
- 60x netballs
- 100x tennis balls
- Electric pump for inflating balls
- Bags to keep the balls organised
- Assortment of bean bags
- 40x air balls for hockey
- 2x vortex howlers for javelin throwing
- 30x quoits for throwing skills

In addition, £500 funding was provided to the younger year groups to support the development of gross motor skills during their continuous provision – in particular, a range of equipment was purchased for Y1 children including skipping ropes, push along carts, croquet, water shooters, grab balls and bean bags. A further £250 was used to purchase games equipment for use at lunchtimes such as soft balls, space hoppers and stilts.

In 2017-18, the balance of the funding has supported us in being able to take up the full offer of local festivals and other competitive games opportunities through the

sports partnership as this often requires us to release teachers during the school day to accompany pupils. These opportunities include

- **Swimming Gala for Fareham Schools** – Years 3, 4, 5 and 6 went to Fareham Leisure Centre to compete in the Fareham Games. The children did particularly well and we came 2nd. This put us through to the Hampshire Games.
- **Swimming Gala in the Hampshire Games** – Years 3 and 4. There was no Year 5 and 6 gala this year. It was the first time we had represented the school in a swimming gala and the children enjoyed swimming against the best children in the county.
- **Netball in the Hampshire Games** – Year 6. The children won their Fareham league and were asked to represent Fareham at the Hampshire games. They were playing against children who were playing at county and national level already. They did well to score in every game.
- **Football Fareham U9s Cup** – Year 4. The mixed gender team came second in their group based on head to head results.
- **Girls' Football** – Year 5 and 6. The team came second in their group based on head to head results.
- **Cricket – Year 5 and 6.** The boys finished top of their group at Burridge Cricket Club having played and won all three matches. They were due to play at the county ground in the next round but this sadly clashed with Avon Tyrrell and the Year 5 rivers trip.
- **Girls' Cricket – Year 5 and 6.** The girls finished top of their group at Burridge Cricket Club having played and won all three matches. They were due to play at the county ground in the next round but this sadly clashed with Avon Tyrrell and the Year 5 rivers trip.
- **Tag Rugby** – Year 5 and 6. The mixed gender team won the Fareham Games against 10 other schools. We were asked to attend the next level at Southampton Rugby Club (and not the Hampshire Games because the RFU are not competing in any competitive events for U11s) but this did not happen due to the weather and was not rearranged.

In addition, the school took part in these events run at the end of the school day:

- **Cross Country** – All KS2. We won both the boys and girls league this year with Charlie Brakewell winning four out of six races. They also won both the boys and girls championship races.
- **Football** – Year 5 and 6. We won the league and the Fareham Schools Cup. We also came runners up in the Hampshire Cup.

By doing this we achieve the fifth key indicator of increased participation in competitive sports.

2017-18 Plans

This year, we plan to continue to focus on the following:

- Key indicator 1 - The engagement of all pupils in regular physical activity – kick starting healthy active lifestyles.

- Key Indicator 3 - Increased confidence, knowledge and skills of all staff in teaching PE and sport.
- Key Indicator 5 - Increased participation in competitive sport.

Funding £17,066

For the next academic year, we intend to continue our involvement with the Henry Cort curriculum support programme and have requested for Miss Luff to stay with us so that we can continue to develop both gym and outdoor games provision, targeting sports which have not yet had her input and supporting teachers with individual areas of need (approx. £8900).

We also plan to continue the breakfast multi-sport club to challenge some of the less active pupils in our school to get active and learn about the benefits of a healthy lifestyle (£1000).

To enable us to continue using the school gym for sport during the summer months, it has been necessary for the ceiling blinds to be repaired as with direct sunlight, the room becomes too hot to use for sport. The governors have therefore agreed for £4000 of the sport premium to go towards the cost of these repairs.

We will continue to support additional lunchtime staffing so that one of the teaching assistants can spend 30mins each lunchtime engaging older pupils in playing games such as 'rip-tag' and another can support the younger pupils in activities using small equipment such as skipping, space hoppers, soft balls and stilts. (£1300)

Surplus funding will continue to support the range of competitive sport opportunities we are able to engage with by providing cover for teachers to attend and supporting the cost of workshops.

- Cover for teachers to take children to competitions and festivals (£1100)
- Dance workshops for YR/1 (£700)

Purchase of resources to support PE, lunch and playtime active games and gross motor skill development will be supported through the money raised from the Sports for Schools sponsored event held in June (£4500 of equipment).
