

Maths Day 1 (Autumn term 2)

We would like you to spend the next two days practising to tell the time.

Start by looking at a clock. You can draw one if you don't have an analogue clock at home, or if you are feeling adventurous there are some lovely ideas online for making your own paper plate clock!

Discuss what the parts of the clock are and how the hands move.

If you think your child needs a lot of practise at telling the time (i.e. needs to look at what o'clock times are) you could watch this video...

https://classroom.thenational.academy/lessons/reading-and-writing-the-time-to-oclock-part-1-69jk6t?from_query=year+2+telling+the+time

If you are happy that your child understands o'clock and half past times, then look at this video instead...

https://classroom.thenational.academy/lessons/identifying-quarter-past-on-an-analogue-clock-68rp8e?from_query=year+2+telling+the+time

There is a teaching clock here so that you can make some times on the clock for your child to identify...

<https://www.topmarks.co.uk/time/teaching-clock>

When you have finished watching the videos, you can make draw some times on a clock for your child to work out. If you have a printer, you could print these sheets out...

https://worksheetgenius.com/clock_worksheets.php

Choose the level of difficulty that suits your child.
