

## Consolidating Key Skills

During the summer term, continue to practise and consolidate these key skills.

### Subitising

Continue to provide regular opportunities for the children to instantly recognise small quantities.

Dice, domino and bingo games as well as matching and comparison games will continue to support children's subitising skills. Ensure they include a variety of different representations.

### Counting

Provide regular opportunities for the children to practise and consolidate counting on and back within 10. Support the children to use the counting principles in order to find how many in a set or to count out a required number of objects from a larger group.

### Composition

Continue to develop the children's understanding that all quantities are composed of smaller quantities.

### Sorting and Matching

Continue to encourage the children to notice similarities and differences as they match and sort objects in new contexts.

- Ask: Can you find or build one the same as this?
- Can you find or build one which is different to this?  
Why is it different?
- Can you see how I have sorted these items?  
How else could we sort them?

### Comparing and Ordering

Build in regular opportunities for the children to continue comparing and ordering quantities and measures. Prompt them to notice which set has more, which has fewer and when 2 sets have the same amount.

Now have a go at deepening understand with week 1 of 'On the move'.
